### **PROFILE**

Web designer/front end developer of 8 years specializing in the concepts and guidelines of standards-compliant web design and cross-browser compatibilities. Experience working with content management systems, e-commerce solutions, dynamic web sites and applications built with PHP, .NET, XML and Actionscript. Extensive experience designing and developing HTML emails and Flash websites and animations.

### **PROFESSIONAL EXPERIENCE**

- 2008-2009      Web Designer, Neal Advertising, Danvers, MA  
Responsible for designing and developing animated Flash banners and landing pages. Also developed valid HTML and CSS web sites from Photoshop designs and mockups. Designed, assisted with development and maintained the company's new WordPress blog & web site.
- 2006-2008      Web Designer, Artifex Technology Consulting, Inc. Lincoln, RI  
Responsible for developing valid HTML and CSS web sites from Photoshop designs and mockups. Work with .NET and PHP developers to integrate into functioning web sites and applications. Provide continuous support to various projects by creating additional website graphics, formatted pages and HTML emails.
- 2005-2006      Web Developer, Digitas, LLC Boston, MA  
Responsible for development and maintenance of web sites, landing pages, HTML email campaigns and online advertising for clients including Ameriprise Financial, Buick, Cadillac, FedEx, GameTap, General Motors, Gillette, OnStar and Virgin Mobile.
- 2001-2005      Web Designer, BZ Results Coventry, RI  
Responsible for designing, constructing and maintaining new clients' web sites; creating and customizing Flash based promotional multimedia emails and presentations; updating and maintaining numerous existing client websites on a daily basis.

### **COMPUTER & TECHNOLOGY SKILLS**
